# Inverse Traffic Light Solution

- 1) If possible, link to (full) external publication.
- 2) Else if a matching internal record exists: link to this one.
- 3) Else: Store a new record with optional element-wise linking and allow subsequent users to link to this record.

- As many external full-links as possible
- Internal links avoid repeated work and allow proper maintenance of yellow records.
- Opportunity for disambiguation of yellow records so that they become green.
